Recently renovated EMG building and original College Hall building exhibit the blend of architecture on campus.

Gallaudet College reaches west to Ohlone College extension center

Gallaudet is establishing its third regional extension center at Ohlone College in Fremont, CA. Expected to open this Fall, the center will tie the resources of Gallaudet to those of Ohlone College and also cooperate with other schools and universities in the West to provide greater educational opportunities and improved services for deaf people.

"Gallaudet receives many requests for services from the West," said Thomas A. Mayes, vice president for Public Services. "The new extension center at Ohlone will ensure better coordination of the services."

Other colleges in western states, including Arizona and Nevada, were also considered as sites for the new center. But Mayes explained that Ohlone's

chances were not hurt by the fact that 75% of all deaf people living west of the Rocky Mountains live along the Pacific Coast. Ohlone's own program for deaf students and interpreter training program, as well as its proximity to the California School for the Deaf in Fremont, were also important factors in the decision.

Ohlone President Peter Blomerley pronounced Ohlone "highly honored" by Gallaudet's decision, which he believes will increase opportunities for deaf people in the area.

Ohlone Dean Frank Nakasako commented: "We hope to draw more deaf students here who eventually will go to Gallaudet."

Gallaudet opened its first extension center in 1977 at Johnson County Community College in Kansas. The midwestern extension center serves the states of Kansas, Missouri, Iowa, Nebraska and Oklahoma. The second Gallaudet extension center opened at Northern Essex Community College in Massachusetts in 1980 to serve the New England states.

Gallaudet's new president W. Lloyd Johns believes that during the next three years other sites in large population areas may be identified for similar programs. "I think this is a positive move," he commented.

Each Gallaudet extension center plans and conducts educational programs in a variety of interest areas for deaf people, parents of deaf children and professionals providing services to deaf individuals. Each center either coordinates or participates in arranging approximately 20 workshops, courses or similar activities a year. These may be held at the host college or at other

Edward Miner Gallaudet building opens with new style

Building roster

As of Oct. 3 the newly renovated Edward Miner Gallaudet Building will be open and operating in part as an administration building for Gallaudet College. The Office of the President of the College and some other administrators are now located on the mezzanine level of the building. Other offices for the National Information Center on Deafness, Visitor's Center and computer support services will be moved into the building at a later date.

The following offices and personnel are now situated on the mezzanine level of the building:

In the Office of the President are W. Lloyd Johns, president of the College, Lillian Holt, supervisor of support services for the office, Gerri Frank, administrative secretary to the president, Maryte Shaewitz, secretary and Mae Helen Spruill, secretary. Also in the President's office are Merv Garretson, special assistant to the president and Sue Ellis, director of External Affairs.

Jerry Lee, vice president for Administration and Business, Irene Pruitt, supervisor of office services and Lavarne Hines, EEO and Community Relations officer are also on the mezzanine level.

John Schuchman, vice president for Academic Affairs, Debbie Mace, administrative secretary and Penny Montague, financial planning coordinator for Academic Affairs may be reached in the renovated building on x5084, voice, and x5829, TDD. (new numbers)

Tom Mayes, vice president for Public Service and his secretary/interpreter Cynthia Faust will retain their x5592, voice/TDD, number.

Flower Briscoe will be receptionist for the entire mezzanine level.

Building takes on new role within College

by Mike Kaika

For 25 years following its construction in 1956, the Edward Miner Gallaudet Building, dedicated in honor of the first president of the College, served as the College library. When the new Learning Center opened in January 1981, the library relocated there and the EMG building stood vacant until renovation began later in the year.

The original construction of the EMG building is significant in two major ways. First, it was the Gallaudet College Alumni Association which gave \$125,000 toward construction cost with Congress appropriating the remainder. The Alumni Association's contribution amounted to almost one-third of the construction cost. Secondly, after the addition of the Edward Miner Gallaudet Memorial Library, Gallaudet College was able to meet criteria for accreditation in 1957.

When the EMG library opened in June 1956, more than 130 alumni and many students spent the afternoon carrying 26,000 books from the old first floor library in College Hall. In the mid 1950s, enrollment was about 400 students, so the 27,000 square foot library was considered huge and spacious. The growth of the library in terms of books and other materials was rapid, particularly in the 1960s and 1970s.

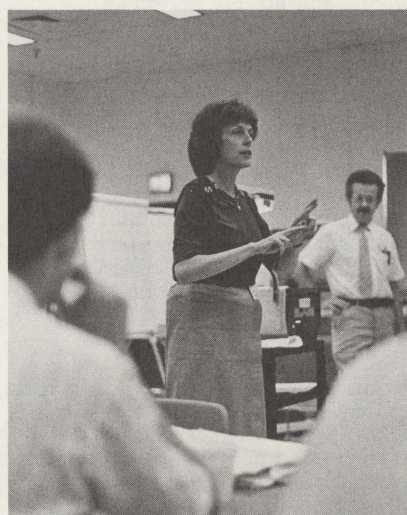

On the top floor of the library (now called the mezzanine), one large area contained the special collection of deafness which included books, journals, reports from schools for the deaf throughout the United States, association proceedings, copies of doctoral dissertations, master's theses and other reports based on research.

As new technologies came into existence, the library added filmstrips, slides, and microfilms. In the mid 1970s, the library was wired for the College cable television system. When the library moved into the new Learning Center two years ago, professional library movers were hired to do the job.

The basement level of the EMG library contained the archives where valuable historical information was stored in an impenetrable vault. Another part of the basement contained an attractive student lounge which was furnished by the Alumni Association. Adjacent to the student lounge was a room designated the

Pre-College hosts school managers

Carol Beckman, program supervisor at MSSD, addresses school managers.

Stress management and communication were among the discussion topics during the first Supervisory Conference hosted by the Affiliated Schools Program of the Special School of the Future. The conference was open to residence staff managers, supervisors and principals from the mid-Atlantic region.

"Traditionally this is a segment of the school population that doesn't have a peer group," Jo Israelson, planning specialist for Pre-College Outreach, said of the residence staff managers. "We have regional meetings for superintendents, workshops for teachers, but nothing for the people who serve as a liaison between the two."

Held on Campus Sept. 18-21, the conference attracted representatives

continued on page 2

School managers discuss stress

continued from page 1

from six nearby schools for the deaf. Presentations were given by speakers from Kendall Demonstration Elementary School, the Model Secondary School for the Deaf, Pre-College Outreach and four departments within the College.

In discussing stress management, Sam Trychin, associate professor of Psychology at Gallaudet, listed various causes of stress and reminded the participants that they can control many stress-provoking incidents.

Israelson echoed that point as she discussed the concept of controlling situations and making choices to maximize benefits. "There's never enough time, there will always be conflict, we're all swamped and tired, there will always be stress. You have to make choices that will help you deal with those problems," she noted.

William Marshall, associate professor in Administration at the College, illustrated techniques for conflict resolution and cautioned the supervisors to remember that in every conflict "someone starts to speak, no one listens and everyone disagrees."

The importance of communication was discussed by Frank Zieziula, a professor in the College Department of Counseling. As he spoke about breakdowns in communication, Zieziula offered some suggestions for improving human relations skills: placing others' needs above your own; increasing listening time; trying to understand your own needs, background, fears and interaction style and not personalizing all interactions.

Because time management surfaced as a major need for managers, Bette Landish, coordinator of Professional Development at Kendall School, suggested a number of such strategies which included the creation of "things

to do" lists and the reservation of time for answering messages.

"Essentially (the conference) was a smorgasboard approach to better juggling of all the tasks a middle manager must perform," said Israelson, who coordinated the event. "We tried to give a taste of all the areas that could be improved on."

Participants, who travelled from the Maryland, Pennsylvania and Scranton Schools for the Deaf and the West Virginia, Hampton and Staunton Virginia Schools for the Deaf and Blind, said they were satisfied with the program, which was planned by Pre-College Outreach.

"Overall, I would rate the workshop very high. I have benefitted greatly," one participant commented. "I would like to see all my colleagues attend a similar workshop."

The new EMG doors are designed for easy access. Shown here, they reflect the Ole Jim, an example of historic preservation and accessibility in design.

Participants in the two-day workshop did several exercises for self-evaluation in stress and time management.

Designer considers access important

A. Stanley McGaughan, FAIA, manager of Design in Gallaudet's Department of Design and Construction has been appointed to a five person committee which will review the current Standard A 117.1, the national standard for accessibility handicapped persons developed by the American National Standards Institute. In addition, McGaughan has been named as chairman of the task force on audio/visual requirements for the standard. He has served for several years as the representative of the American Institute of Architects on the ANSI A 117.1 review committee and played a major role in the development of the original 1980 standard.

ANSI is a federation of trade associations, technical societies, professional groups and consumer organizations and is headquartered in New York.

The ANSI standard for accessibility is used as a guideline for federal, state, city and local accessibility standards. Much of the new construction in the United States is required to meet some level of accessibility for handicapped persons. Architects from all over the country refer to the ANSI standard when designing or renovating public and commercial buildings. ANSI policy requires that the standard be reviewed, amended or reaffirmed every five years. The appointment of the coordinating committee is a first step toward the development of the 1985 edition of the standard.

Among his other duties, McGaughan was the college representative in the design phase of the Edward Miner Gallaudet Building renovation. He believes that the new EMG building is the best example of design for accessibility on campus. The automatic door system used in the building is an example of the "advancement in the generation area of hardware" currently available said McGaughan.

The building also has design features that ease the movement of people with impaired vision. At the EMG building we have opted for raised signage for tactile recognition by visually impaired persons, commented McGaughan. All signage is in the same place in relation to the way the door opens. For example the signs will all be the same height from the floor and placed near the latch jam so that the reader will know where to find the sign, how the door opens and where to enter.

Visual and audio alert systems used at Gallaudet help McGaughan in his

work with the task force on the ANSI standards. "One of my primary concerns is flashing signals for emergency situations. These are mentioned in the standards but they are not emphasized as mandatory," says McGaughan.

The experience of providing accessibility for all people on the campus of Gallaudet College will be incorporated with experiences of other institutions and building projects as the ANSI standards are revised in the coming years.

Building changes role

continued from page 1

Alumni Room where the GCAA held its Board meetings.

On the main level of the EMG library at the south end (closest to College Hall) was the College Board of Trustees Room. Several times a year Board members and College officials met in this paneled room. While the EMG building was undergoing renovation, the Board of Trustees met in the MSSD penthouse.

The EMG Memorial Building is now ready to accommodate its new occupants. Dr. Johns and some administrators have moved into the areas where decades of Gallaudet students have studied.

Sponsored R&D

Grant/contract deadlines

Provided below are application deadlines of selected federal programs that offer potential grant or contract opportunities for Kendall Green faculty, staff and graduate students. More details on programs of interest can be obtained from the Office of Sponsored Research, x5030 (voice or TDD).

Deadline	Program
10/15/83	NSF: Science and Technology to Aid the Handicapped
10/15/83	Kellogg Foundation: Kellogg National Fellowship Program
10/28/83	ED: Fulbright-Hays Training Grants Program
11/01/83	ED: FIPSE Mina Shaughnessy Scholars Program
11/01/83	ADAMHA: Prevention of ADM Problems in Children and Adolescents

Science Program

The Department of Education is accepting applications for new awards under its Minority Institutions State Improvement Program, administered by the Fund for the Improvement of Postsecondary Education. The program was announced on September 14. Applications are due December 2, 1983.

These grants support projects to improve the overall quality of science education at institutions serving minority students and to increase the number of underrepresented ethnic minorities in science and engineering fields. \$4.8 million has been budgeted for these grants overall.

Four types of grants will be supported through these awards: (1) Design Project Grants, (2) Institution Project Grants, (3) Cooperative Project Grants, and (4) Special Projects Grants. The Department expects to award 15 grants for institutional and cooperative projects and 18 grants for special and design projects.

The maximum amount for an institutional project grant is \$300,000 for a 36-month award, and \$500,000 for a cooperative grant for 36 months. In addition to predominantly minority universities, eligible applicants include non-profit universities that offer services to minority students or provide training to project participants and professional scientific societies.

For further information, please contact the Office of Sponsored Research. Application forms are available from the U.S. Department of Education, Fund for the Improvement of Postsecondary Education, Attn: 84.120A, Minority Institutions Science Improvement Program, Room 3100, Regional Office Building 3, 7th and D Sts., SW, Washington, DC 20202, 426-9313.

Gallaudet College is an equal opportunity employer-education institution. Programs and services offered by Gallaudet College received substantial financial support from the Department of Education.

Advocacy Notes

Madeleine Will profile

by Merv Garretson

The appointment of Madeleine Will as Assistant Secretary for Special Education and Rehabilitative Services was unanimously confirmed by Congress on June 28th. It is generally felt that this highly respected and knowledgeable appointee will set a positive tone in the Department of Education with regard to the education and rehabilitation of disabled children and adults.

A Phi Beta Kappan, Ms. Will graduated from Smith College and received her MA from the University of Toronto. She is the mother of three children, one with Down's Syndrome. She has been an active advocate for handicapped children in Maryland and for the developmentally disabled at the na-

tional level.

The new Assistant Secretary will be responsible for Special Education Programs (SEP), the Rehabilitation Services Administration (RSA), the National Institute of Handicapped Research (NIHR), and the recently transferred Office of Handicapped Concerns (OHC).

Long interested in early childhood development and early intervention programs, Ms. Will believes the federal government should help disabled students prepare for independence and self-sufficiency by assisting state and local education agencies in providing an unbroken chain of services from birth through job training and lessons in community living. She calls the fight for equality among disabled people "perhaps the last civil rights revolution in the country."

Members of the Musign Theatre Company, left to right: Ed Chevy, Rita Corey and Bob Hiltermann.

Secretary qualifies for CPS certification

Virginia Torabi, secretary to the dean in the School of Communications, recently qualified for the Certified Professional Secretary certification—the third person on Campus to have qualified for the nationally recognized certification program.

Prior to Torabi's certification, Irene M. Pruitt and Phyllis J. Sanders were the only Gallaudet employees who had passed the certification program administered by the Institute for Certifying Secretaries of Professional Secretaries International. Pruitt is supervisor of office services in the Office of the Vice President for Business Affairs and

Sanders is a personnel assistant in the Office of Personnel.

The CPS exam is given annually on the first Friday and Saturday in May. Comprised of six sections, the exam covers the areas of business law, economics and management, behavioral science, accounting, communication and administration and technology. A person who has passed one section of the exam has six years to complete the remaining sections to qualify for certification.

Four Gallaudet employees began the exam this year and passed more than half of the sections. Priscilla Brown, secretary in Services and Purchasing, Becky Davis, administrative secretary in the School of Education and Human Service, Nancy Montillo, administrative secretary in the Linguistic Research Lab, and Debbie Mace of Academic Affairs took the exam in May and are one or two sections away from full certification. Both Linda Beavert, secretary in the Department of Psychology, and Anna Fowler, administrative secretary in the English department, have successfully completed five of the six parts in past years.

The CPS and an accompanying study program of courses began on Campus three years ago.

New extension center

continued from page 1

colleges or conferences in the extension center's region. The Gallaudet administrator for all three Gallaudet extension centers is Roslyn Rosen, dean of the College for Continuing Education in the Division of Public Services.

As we go to press, a search is underway for a director of the new extension center at Ohlone. The center will be staffed by the director and a secretary and universities in the western states.

W. Lloyd Johns (center) and Jerry C. Lee (left) discuss the fiscal year 1984 budget with Congressman William H. Natcher (D-Kentucky), chairman of the Subcommittee on Labor, Health and Human Service and Education of the House Committee on Appropriations.

MUSIGN Company to perform

MUSIGN Theatre Company will bring to Gallaudet this month a completely new show featuring unique musical entertainment in sign, mime and dance. The California-based company, featuring former Gallaudet students Rita Corey, Ed Chevy and Bob Hiltermann, will perform on Oct. 14 and 15 at 8 p.m. in the College auditorium.

The group performs musical selections drawn from New Wave, Broadway and movie musicals, jazz and the early days of rock. Colorful and often exotic costumes and props complete the staging.

Corey, who is artistic director of MUSIGN, earned a bachelor of arts degree in drama from Gallaudet. At the age of 17, she studied at the National Theatre of the Deaf (NTD) Professional School and toured with NTD for three years. While attending college, she received a Scoggins Fellowship to attend the Eugene O'Neill Theatre Center's National Theatre Institute.

Tax program set

The Personnel Office will hold two general information sessions on Gallaudet's 403 (b) Tax Sheltered Annuity/Investment Program, a program which allows employees to put away money before taxation with taxes deferred until the money is used at a later time in life or for retirement.

The sessions on Oct. 12 and 13 will present an overview of the 403 (b) program and participants will be given updated summary packets on the features of an annuity program. Representatives from the nine participating plans—which include New York Life, Mutual of New York, Valac, First Investors and Security First—have been invited to the sessions. Throughout each session these representatives will be available to answer specific questions about the different plans. All Gallaudet employees are invited to use this time to comparison shop among the plans.

Interpreters will be present during the sessions. The meetings will be held in the Multipurpose Room of Ely Center on Oct. 12 from 1-5 p.m. and Oct. 13 from 9 a.m.-1 p.m. Sessions will run continuously during those hours.

For more information about Gallaudet's 403 (b) program or the sessions, call David Curtis, x5113, voice or TDD.

More recently, she performed the role of Sarah in the Tony Award winning play "Children of a Lesser God" and in 1983 received a scholarship award for excellence from the California Governor's Committee for Employment of the Handicapped on Disability and the Media. Corey currently directs, choreographs and performs in the productions of MUSIGN.

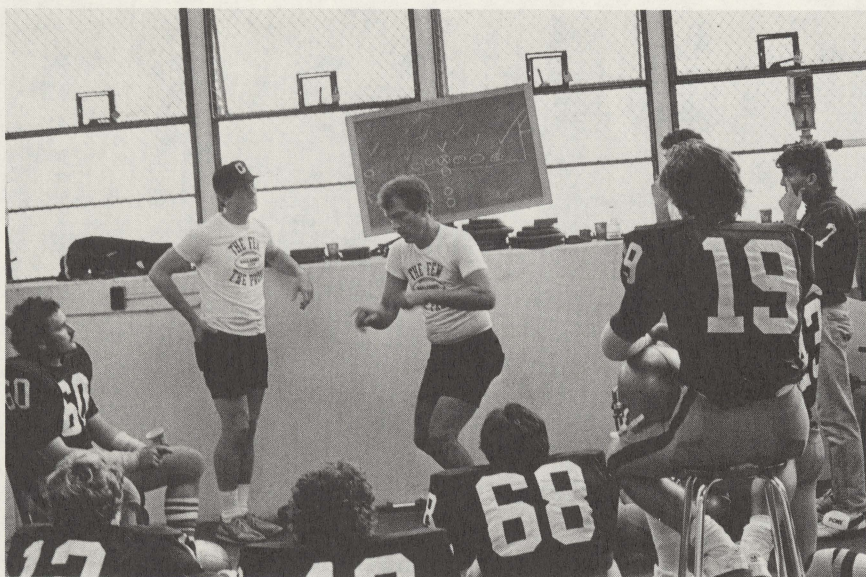

Ed Chevy attended the California School for the Deaf (Berkeley) and Gallaudet. He began his artistic career during college as a bass guitarist for a hearing impaired rock band known as "Funk." He later established "Cadillac Eddie and His Hot Rod Lincoln" and "Burnin' Rubber," two visual stage shows that pioneered musical entertainment for the deaf.

In addition to his stage and musical experience, Chevy has appeared on television news and entertainment specials, and is a recipient of the Victor Dru International Dance Tournament Award. He is a founding member, performer and co-director of MUSIGN.

Bob Hiltermann, born in West Germany, grew up and attended school in Canada and continued his education in Edmonton, Alberta and at Gallaudet. During college, he performed as a drummer with Chevy in "Funk" and later in "Cadillac Eddie and His Hot Rod Lincoln."

He attended the National Theatre of the Deaf Professional School for Deaf Theatre Personnel after college, later performing with the Canadian Theatre of the Deaf and the British Columbia Deaf Mime Troup. Hiltermann founded and directed "Big Bob's Hand Gang," which won the Canadian Cablevision Award in 1974. He was also a recipient of the Canadian Cultural Society of the Deaf's "Deftly Award." In 1983 he received a scholarship for excellence from the California Governor's Committee on Employment of the Handicapped Office on Disability and the Media. Like Chevy, he is a founding member, performer and co-director of MUSIGN.

Tickets for MUSIGN's performances are \$3 for Gallaudet students, \$4 for non-Gallaudet students and children, and \$6 for all others. Tickets can be reserved by calling x5608 (TDD only) and x5605 (voice only). Tickets can also be purchased at the box office Oct. 3-7 from 2-5 p.m.; Oct. 10-13 from 2-5 p.m. and Oct. 14 and 15 from 2-8 p.m.

Assistant coaches Mike Jackson (left) and Chuck Buemi discuss offensive strategy with team members during halftime of the Gallaudet-UNC-W game.

Bison win season opener

The Gallaudet football team, under rookie head coach Ken Kramer, won the opening game of the season on Saturday, Sept. 24 by defeating the club football team from the University of North Carolina-Wilmington 7 to 0. This is the first time a rookie coach won the season's opener since the 1953 team did it for its rookie coach Frank Turk.

Fullback Chubby Hampton provided the margin of victory with a 10 yard TD run with less than a minute remaining in the first half. Quarterback Kevin Poore kicked the extra point.

Good defense by the Bison was the key to winning the game. Several

times, particularly in the second half, UNC-W mounted a scoring threat but lost the ball via an interception or fumble.

Gallaudet's next area game is Saturday night, Oct. 8 under the lights at Anne Arundel Community College. Game time is 7:30 p.m.

In other college sports results, the men's soccer team lost its first game of the year to Charles Community College 2 to 1 but rebounded and trounced Chesapeake Community College 8 to 0. The Bison booters are currently sporting a 4-1 record. The next soccer home games are Oct. 4 and 7 at 3:30 p.m.

Eagles fly high in sports action

The MSSD football team continued its winning ways with a 24-8 victory over Pallotti Saturday night, Sept. 24.

The Eagles accumulated 230 total yards to Pallotti's 87 and to add insult to injury, Pallotti was penalized a whopping 95 yards. The Eagles scored four TD's—one each by Tosselli Silvestri, Pat Crooks, Bob Wilkins and Ray Brooks.

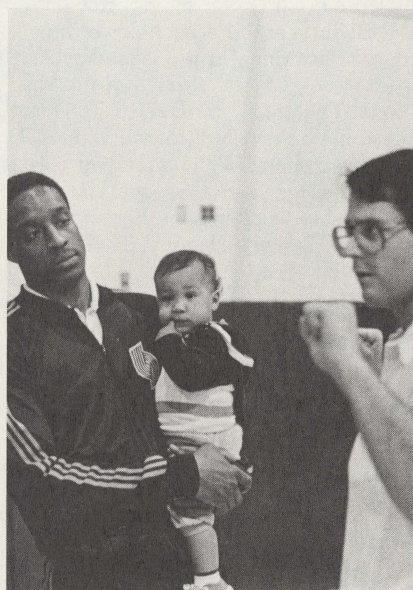

MSSD's next home game is Friday, Oct. 14 at 3:30 p.m.

In other MSSD sport results, the girls volleyball team won the first three games of the season—defeating Immaculata, Pallotti and Poolesville. The next home game will be Thursday, Oct. 6, starting at 4:00 p.m. in the MSSD gym.

The boys soccer team are still looking for the first win of the young season after losing to Jewish Day 5-1 and Riverdale Baptist 8-0. The soccer team will have a home game under the lights against Pallotti on Wednesday evening, Oct. 5 at 7:00 p.m.

Materials needed for Gallaudet display

Gallaudet College will be participating in an exhibit section at the 13th Annual Southeast Regional Institute on Deafness Conference to be held Oct. 17-20 in Charleston, SC. All departments on campus are invited to submit materials for display at this conference. For further information contact Pete Moran by Oct. 7, x5928 (voice) or x5858 (TDD).

Kenny Carr, a member of the Portland Trailblazers professional basketball team and a former DeMatha standout, conducted a two-hour basketball clinic at the Field House on Saturday, Sept. 24. Mike Rosenbaum, right, head basketball coach at the College, arranged the clinic for Gallaudet and MSSD players.

Luncheon is served

Ladies and Gentlemen, luncheon is served.

The Ole Jim will be open for lunch beginning Oct. 3 from 11:30 a.m. to 1:30 p.m. The menu presented by ARA food services will be similar to last year's salads and sandwiches with occasional special entrees.

Reservations are not necessary. Call a friend and meet for lunch in one of Gallaudet's finest historic buildings—the Ole Jim.

Classified Ads

FOR SALE: '78 Chevette, 2-dr., stick shift, new all-season radial tires (4), new muffler, new battery & brakes. Well maintained w/oil & oil filter changed every 3,000 miles. Good motor. Asking \$2,000. Call 722-5844 V/TDD daytime or 772-1672 TDD after 6 p.m.

FOR SALE: 1971 Toyota Corona. Engine in good cond., new battery, alternator & exhaust. 4 new radial tires w/82 Celica reams. Complete with AM/FM 8 Track stereo. \$500—an unbelievable buy!! For more info, call Rita, x5114 or Phil, (301) 277-5793 after 6 p.m., Mon.-Sat. & anytime Sunday.

FOR SALE: Townhouse, 1639 Potomac Ave. S.E. Completely renovated, 2 br., 1½ bath., w/d, a/c, fireplace, etc. 2 blocks from Metro. \$71,950. Assumable financing avail. Call 261-7857 evenings.

ROOMMATE NEEDED: Spacious 3 br. house in Cheverly. 6 miles from Gallaudet. 1 mile from Metro. \$200/mo plus util. Available Nov. 1. Responsible & non-smoker. Call Maggie or Nance, 341-5729 V/TDD.

FOR SALE: '76 XS-500 DOHC Yamaha, good cond., good tires, 16,000 mi., 2 helmets incl. Asking \$550. '78 Chevette, 4-dr, low mileage, auto, AM/FM radio, 2 new radial tires, mint. cond., new muffler. Asking \$2,200. Call David, 552-1379 TDD after 7 p.m.

ROOMMATE NEEDED: Female. Near Greenbelt area. \$200/mo. 794-6149 TDD, eve. only.

FOR RENT: 2 br., 1 bath, apt., available Nov. 1. Located in Laurel, Md. on Rte. 197, just minutes off the BW parkway, 20-25 min. from Gallaudet. Good location. \$380/mo. plus gas & elec. Call 498-5481 day. Or eve. at x5889 or x5916 TDD.

Writers discussion set

Writers and editors from the Washington Independent Writers, publishers of "Writer's Guide to Washington," will hold a discussion on the book Oct. 18 at noon at the Martin Luther King Memorial Library on G Street NW.

Janet Bailey will be the interpreter, and interested persons are invited to bring a lunch to the library lobby. The library is located at 901 G St. NW.

Free parking will be available in the library's underground garage. The Metro Center and Gallery Place subway stations are less than a block away from the library.

For more information, call 727-2255 TDD or 727-1186 (voice).

MSSD charts bus

Space is still available on a chartered bus for MSSD Eagles football fans travelling to Indianapolis for the game with the Indiana School for the Deaf. The undefeated Eagles face the Indiana School team at 7:30 p.m. Friday, Oct. 21.

The bus will leave MSSD at 7 p.m. Thursday Oct. 20. Faculty, staff and parents are invited to join in the trip. Cost for the trip package is \$75. In addition to the transportation this includes admission to the game and a victory celebration, a hotel room for Friday night and breakfast Saturday morning before the return trip.

For reservations or further information call John Parker x5963.
